

consensus\_label\_6votes

**LSPC**

The figure is a scatter plot on a white background. It contains two main clusters of points. The upper cluster, labeled 'LSPC', is composed of numerous orange points and is roughly triangular in shape, pointing upwards. The lower cluster, labeled 'HSPC', is composed of numerous blue points and is roughly triangular in shape, pointing downwards. There is a small region of overlap between the two clusters in the center, where some orange and some blue points are visible. The labels 'LSPC' and 'HSPC' are written in bold black font within their respective clusters. The title 'consensus\_label\_6votes' is located at the top center of the image.
